Prefer bullet cameras? No problem, switch any dome camera to a SA9137F bullet camera for the same price.

4/8 Channel TVI Surveillance Packages - The ideal HD upgrade for older systems.

TVI offers up to 1080p resolution over standard coaxial cabling, this means if you already have a CCTV system installed and need higher definition you can connect this system up without running new cables. This system offers 1080p real time recording with Push Video notification to your mobile device within 5 seconds of triggering. Supports up to 2 SATA drives with max 12TB storage for storing several weeks footage. The included SA9123F dome camera offers superb full HD performance in a tough weatherproof case.
