Linear Lab Power Supplies

Our most popular models! Fully adjustable with LCD meters for precision adjustments. Great for R&D and workshops.

- Precision linear toroidal design
- Fixed 12V & 5V output rails
- Fully regulated
- Short circuit & overload protection.

Why choose a linear toroidal power supply?

Linear power supplies offer far lower noise compared to switchmode designs and are well suited to powering sensitive devices or analog circuits. They are ideal for use in labs, with communications or medical equipment.

See last page for store locations or visit altronics.com.au

Sale pricing ends August 31st 2020.

Creality® 'Ender 3' 3D Printer

Creality's top selling 3D printer is here! The Ender 3 is a compact 3D printer offering excellent print quality with a build volume of 22Wx22Dx25Hcm and is compatible with ABS, PLA and TPU filaments. Supplied mostly assembled and can be up and running within an hour.

Print bigger with the Creality® CR-10 V2 3D Printer

The CR-10 offers reliable large volume printing up to 30Wx30Dx40Hcm!

The dual port fan cooled hot end offers reliable and precise print quality whilst the triangular design provides excellent stability. Heated print bed reduces warping, ensuring great prints every time. This printer is great for anyone who needs to print larger designs such as cosplay parts, architectural models & replacement parts.

Made from high quality materials for less brittle filament breakages.

\$49.95

per kg.

Creality® Premium PLA Filament

We're now stocking Creality's premium 1.75mm PLA designed for use in many brands of 3D printer on the market. Creality have focused on making top quality non toxic filaments with a tolerance of just 0.02mm. Each filament is 100% bubble free and offers excellent tensile strength & fluidity. This all adds up to more reliable prints and less waste!
