

C 5220

10" Outdoor IP65 Rated

150W Subwoofer

Overview

This outdoor 150W passive subwoofer speaker is designed to be placed virtually anywhere outdoors for added low end bass response for commercial and domestic music systems. Its unique ABS enclosure can be placed on the floor and secured using the included eye bolt. It is ideal for use in cafes, restaurants, small bars etc and is also well suited to any domestic entertaining area. Ideally paired with a dedicated subwoofer amplifier, such as the Redback A 4861.

Features

- Provides added low end frequency for domestic & commercial music systems.
- Commercial grade 10" driver.
- Can be paired with Redback A 4861 Subwoofer Amplifier.
- Unique ABS plastic enclosure with downward firing subwoofer.
- Long life premium rubber surround.
- Security eyebolt to prevent theft.
- 4 Ohm input.

Testing

Redback® drivers are subject to strenuous factory testing reducing the risk of unit failure or performance reduction over time. Each driver has a power rating well above the max tapping of the transformer, ensuring reliable operation and excellent longevity.
