ZIP RACK
by Altronics.
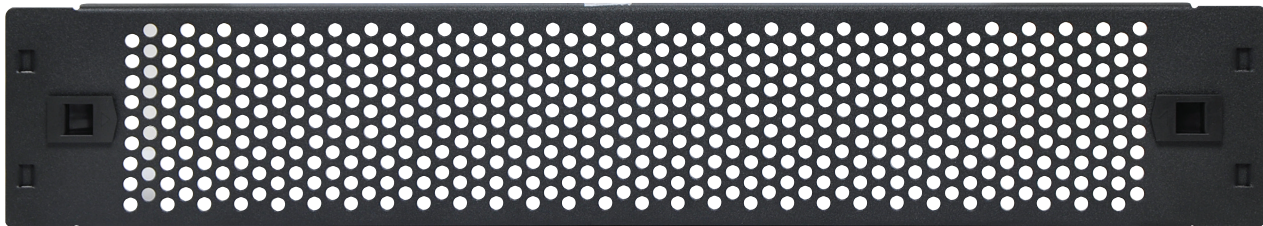

Blank Snap/Vented Snap In Steel 19" Rack Panel

- Suitable for all 19" racks including network and server cabinets.

- Snap-in clips for fast installation - requires no mounting screws or cage nuts.

- Tough powdercoated steel design

- Universal sizes

- Helps to reduce dust movement and aid ventilation.

A real time saver for the installer, these snap in rack panels provide instant in-fill between equipment in 19" rack systems. They require no cage nuts, bolts or tools and are easily removed and relocated if required by pushing the two pressure clips inwards. Coated in a hard wearing stippled black powdercoat. The vented snap in panels are ideal for any 19" rack system which requires additional airflow to help keep equipment cool.
