

5W & 9W Warm White LED Downlight Kits

NEW!

SHARP LED

X 2086 provides equivalent output to a 50W halogen globe with only 1/8th the power consumption.

Complete warm white LED downlight kits featuring a white gymbal fitting with either 5W 60° dimmable LED or 9W 60° dimmable LED. Both units are equipped with a long life 35,000 hour SHARP® LED element. Ideal high efficiency replacement for halogen lighting or as part of a new installation. The special front lens even looks like a standard halogen globe. Includes high efficiency mains transformer with 1.2m lead.
