## Plug In Wireless AC1750 Range Extender

new  
for 2019

This easy to use plug in high power dual band AC (2.4GHz/5.8GHz) wireless extender is ideal for situations requiring increased bandwidth or distance. It operates as a relay station between your existing wireless AP or router & your Wi-Fi equipped device. It repeats the data signal, extending coverage to unreachable or difficult to wire areas. An in built wired gigabit ethernet port allows you to turn a wired device into a wireless one. Can also operate as a wireless access point.

| Price Each                  | RRP    |
|-----------------------------|--------|
| D 4338 450/1300Mbps (RE450) | 195.00 |

## Plug In Wireless AC2600 Range Extender

new  
for 2019

The highest speed range extension unit available for streaming UHD video to multiple devices, plus intensive gaming requirements. Easy to use plug in design with high power dual band AC (2.4GHz/5.8GHz). Ideal for situations requiring increased bandwidth or distance. It operates as a relay station between your existing wireless AP or router & your Wi-Fi equipped device. It repeats the data signal, extending coverage to unreachable or difficult to wire areas. An in built wired gigabit ethernet port allows you to turn a wired device into a wireless one. Can also operate as a wireless access point.

| Price Each                  | RRP    |
|-----------------------------|--------|
| D 4340 800/1733Mbps (RE650) | 249.00 |

## Deco M5 Mesh Wi-Fi System

Deco is the whole-home Wi-Fi solution with comprehensive security and filtering. It delivers fast, uninterrupted Wi-Fi to every room, improving coverage, speed and reducing dead spots. Deco is also easy to set up and grows as you add devices to your home. Dual band AC1300.

| Price Each     | RRP    |
|----------------|--------|
| D 4345 DECO M5 | 149.00 |

## ▼ Wireless Access Points

## Wireless N Access Points

This wireless access point is designed to establish or expand a scalable high-speed wireless N network. Ideal for connecting multiple ethernet enabled devices to a wireless network. Plugpack included.

| Price Each                     | RRP   |
|--------------------------------|-------|
| D 4278 450Mbps (TL-WA901ND V4) | 65.00 |

## Indoor Ceiling Mount Wireless AP

new  
for 2019

High performance ceiling mount wireless access point for general corporate Wi-Fi. Free CAP Controller Software lets administrators easily manage hundreds of CAPs. Supports PoE. Dual 3dBi internal antennae. Auranet software control allows administrators easy management.

**Features** • 300Mbps or AC1750 dual band • Easy to mount on ceiling surface • Passive PoE • Software controlled • Captive portal for wi-fi guests • Rate limited per SSID • Load balancing • WPA/WP2-enterprise • Multi SSID support • AP and standalone AP modes • SSID to VLAN Mapping • FIT/FAT modes

| Price Each                          | RRP    |
|-------------------------------------|--------|
| D 4380 300Mbps (CAP300)             | 215.00 |
| D 4383 450Mbps / 1300Mbps (CAP1750) | 325.00 |

## Indoor Ceiling Mount Wireless AP

High performance ceiling mount wireless access point for general corporate Wi-Fi. Free EAP Controller Software lets administrators easily manage hundreds of EAPs. Supports PoE.

**Features** • 300Mbps (S 9745), AC1350 MU-MIMO (S 9747) or AC1750 (S 9749) • Easy to mount on ceiling surface • Passive PoE • Software controlled • Captive portal for wi-fi guests • Rate limited per SSID • Load balancing • WPA/WP2-enterprise • Multi SSID support • AP and standalone AP modes • SSID to VLAN Mapping • Band steering to 5GHz

| Price Each                         | RRP    |
|------------------------------------|--------|
| S 9745 300Mbps (EAP110)            | 65.00  |
| S 9747 450Mbps / 867Mbps (EAP225)  | 145.00 |
| S 9749 450Mbps / 1300Mbps (EAP245) | 195.00 |

## Outdoor Wireless N Access Point

new  
for 2019

Built for outdoor wi-fi applications this access point provides up to 300Mbps speeds with dual 5dBi waterproof antennas. High transmission power and high gain antennas provide excellent range and coverage. Durable weatherproof enclosure. Supports PoE. Auranet software control allows administrators easy management.

**Features** • 300Mbps wireless N speed • Simple wall or pole mounting • Passive PoE • FIT/FAT modes • Weatherproof enclosure • Software controlled • Captive portal for wi-fi guests • Rate limited per SSID • Load balancing • WPA/WP2-enterprise • Multi SSID support • AP and standalone AP modes • SSID to VLAN Mapping

| Price Each              | RRP    |
|-------------------------|--------|
| D 4381 (CAP300-Outdoor) | 255.00 |

## Outdoor CPE Wireless Access Points

These high performance directional wireless antennas are suitable for 2.4GHz or 5GHz networks. Featuring a revolutionary 2x2 high gain antenna design and weatherproof enclosure for outdoor pole mounting. 300Mbps. Dimensions: 224 x 79 x 60mm.

**Features** • 2x2 dual-polarized directional MIMO antenna • Adjustable power • 15km long range • AP / Client / Repeater / AP Router / AP Client Router (WISP) operation modes • Outdoor stabilized enclosure with IPX5 waterproof • Dual Ethernet ports and grounding terminal • 6000V Lightning Protection • 15KV ESD Protection • Passive PoE Adapter supports up to 60m.

| Price Each                | RRP    |
|---------------------------|--------|
| S 9738 9dBi 2.4GHz CPE210 | 89.00  |
| S 9740 13dBi 5GHz CPE510  | 110.00 |

## TP-Link Warranty

All TP-Link® products are covered by a three year manufacturer warranty. See the TP-Link website for more information.
