## USB 2.0 Wallplate Balun System

Transmitter

Receiver

A point to point USB 2.0 over UTP balun pair mounted into a wallplate for transmission of USB data between rooms at rates of up to 480Mbit/s. Installation is made easier via power over ethernet (PoE), which only requires a single power source at either end. Maximum USB transmission distance 50m when using a standard Cat5e UTP cable. No drivers need to be installed. Plug and play operation. Ideal for extending the reach of cameras, display cards, network adaptors, hard drives, flash drives, audio players, printers and scanners etc.

**Features**

- Extends USB 2.0 range up to 50 meters at 480Mbit/s
- Transparent to USB hosts and devices, no driver is needed
- Support hot swap, plug and play
- Ideal for extending USB2.0 between rooms
- Fits standard electrical wallbox
