Solar Power Sensor Floodlights

X 2386 X 2387

These PIR activated weatherproof lights are the perfect security lighting solution for renters, difficult to wire spots or remote sheds without mains power. Shed some light on pathways, driveways, gardens and patios. These super bright PIR activated lamps require no wiring. The compact folding design allows you to mount it on virtually any surface with LED and PIR on one side, solar panel on the other. Three function modes are available all of which only activate at night. Mode 1: 100% brightness for 20 seconds when motion is detected. Mode 2: 15% brightness all the time, with 100% brightness for 20 seconds when motion is detected. Mode 3: 100% brightness until battery is depleted. IP54 rated for weather resistance with stainless steel hardware.

Price Each	Size	RRP	3+	6+
X 2386	4W 500 Lumen 123 x 88 x 46mm	29.95	26.95	23.95
X 2387	7W 800 Lumen 144 x 104 x 46mm	39.95	35.95	31.95

6W Outdoor Solar Spotlight

This solar spotlight is suitable for highlighting all your garden and landscape features, or to light up your pathway. The 17cm ground spike can be pushed into the soil and adjusted up to 120° to highlight trees, features or simply shed light across your driveway. Spike can also be removed for mounting to a wall if required. Can be set to floodlight beam, spotlight beam or a combined super bright beam in either cool white or warm white. Will activate at dusk and run until the battery is depleted. Requires 7 hours sunlight to charge for approx 6-7 hours lighting (depending on mode). IP67 rated for weather resistance. Size: 135 x 125 x 315mm.

Price Each	RRP	3+	6+
