

▼ LED Strip Lighting

Battery Powered USB Aluminium LED Sensor Light

This USB rechargeable light is ideal as kitchen pantry, work bench or cupboard light thanks to its in-built PIR motion sensor (3-4m detection range). It can also be manually switched on and off as desired. The aluminium housing contains a 1800mAh battery and high brightness LED module with 200 lumen light output. The rear of the housing is fitted with an adhesive magnetic strip so you can easily remove it from the location for recharging via USB type C. In motion detect mode, light turns off after 30 seconds. Size: 300W x 37.5D x 22Hmm.

We invite customers to seek independent professional assistance on complex circuits or applications.

12V Modular 300mm Aluminium Strip Lighting

Perfect for lighting cabinetry in:

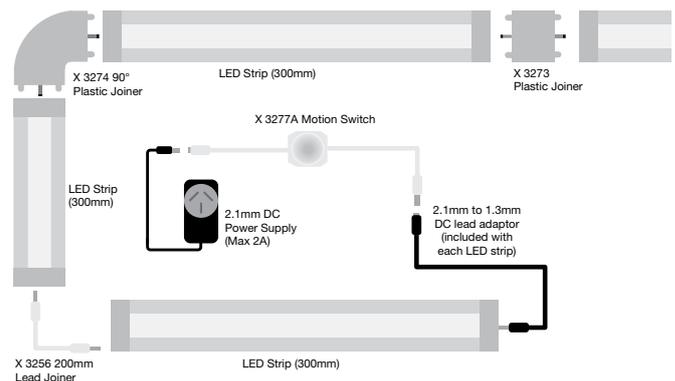

- Kitchen
- Laundry
- Wardrobes
- Boats
- Caravans
- 4WDs

Less than 10mm high!
Super low profile.

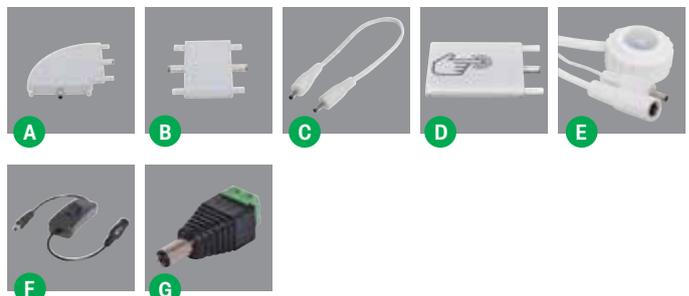

These stylish IP40 rated LED cabinet lights are the perfect way to brighten up any dark spaces in your home. They work great throughout any space in the home in particular; study, kitchen, laundry and wardrobes. They are also ideal for workspaces in caravans, RVs and 4WDs. They provide a crisp clear light output. Each strip includes SMD 4014 size LEDs offering higher lumens per watt than 3528 size chips. The housing measures 39mm wide, 8mm high and 300mm in length. A maximum of 5 strips can be daisy chained per power supply (500mA per strip). Included is a 2.1mm DC to 1.3mm DC lead for connection to standard 12V plugpacks and mounting clips.

Input:	12V DC	Lumens:	≈210lm max per bar
