Genlamp® GU-5.3/MR-16 LED 'Dimmable' 8W Globes

Model:	X 2290	X 2292
Input voltage:	12V	12V
Current draw:	< 700mA	< 700mA
Colour temperature:	3000K	3000K
Luminous flux:	530 lumens	438 lumens
Beam angle:	36°	60°
Life span:	50,000hrs	50,000hrs

Features premium quality Japanese Nichia® LEDs for excellent light output and reliability.

An economical MR-16 LED downlight designed to produce the equivalent light output to a 50W halogen. These latest design LED globes offer savings of up to 80% over traditional halogen lighting. For a \$25 investment you could save up to \$600 on your power bill per globe changed over its long life time.

IMPORTANT: If using with a dimmer only an electronic transformer with a trailing edge or universal dimmer will be suitable. Iron core (magnetic) transformer can only be used without a dimmer.

Price Each			RRP
