Speaker/Projector Mounting Brackets

This unique heavy duty swivel bracket holds up to 15kg. The two piece construction makes it a breeze to install speaker boxes. The base is fixed to the wall, the swivel assembly is then fixed to the speaker box and set to the desired angle. The box with swivel assembly is then slotted into the base and snap-locked into position. Minor angle adjustments can then be made. Provision has been made for a security screw to prevent theft. Great for mounting speakers, security lights, cameras etc. 50° horizontal and vertical adjustment. Supplied in pairs.

| Depth from wall | Max Weight | Pan | Tilt |
|-----------------|------------|-----|------|

Universal Swivel Wacki® Bracket

H 8010

Designed & manufactured in Australia these brackets have a multitude of uses. Fantastic for mounting speakers, strobe lights, security lights, CCTV cameras etc. The unique design allows up to 50° vertical or horizontal adjustment. Unlike most brackets on the market the Wacki® Bracket is a breeze to install and adjust. After mounting the base to the wall and the mounting plate to the product, you simply screw the two parts together, adjust to where you want it and tighten the nut. Supplied in pairs.

- Features**
- Up to 50° angle variation
 - Two mounting plate sizes
 - Requires no special tools for installation
 - Installs in minutes
 - 5kg max.
