**Redback® DAB+/FM Tuner & CD/MP3/Bluetooth® Player**

A single disc CD player with USB and SDHC card input, Bluetooth® streaming, plus an DAB+/FM tuner and recording. Designed for use in commercial background music (BGM) applications. Four stereo RCA outputs are provided; dedicated outputs for CD player, tuner and Bluetooth, plus a combined output which gives priority to the CD player and switches to the tuner once the disc has finished. This provides a continuous source of music program. Any output (or another source) can be routed to the Aux input for recording to USB or SD card. USB data can also be copied to SD card and vice versa. Excellent for use in boutiques, bars, shopping centres, cafes etc. Includes infra red remote control. Size: 430W x 240D x 44Hmm.

**Features** • Single disc MP3/CD/Bluetooth playback and recording with USB/SDHC Card (up to 32GB) • Remote control • DAB+/FM tuner with 100 preset stations • Dedicated output for MP3/CD and tuner plus combined output with MP3/CD priority • 240V AC operation

**DAB+ FM Digital Tuner With Bluetooth®**

Experience the crystal clear signal quality that digital radio can provide by using this compact hi-fi component style DAB+/FM tuner. It is an ideal replacement for your non-DAB+ analog hi-fi or home theatre receiver. Plus it allows wireless Bluetooth® audio streaming from your smartphone or tablet. The dual internal tuner provides access to digital DAB+ stations, plus analog FM stations. An optical S/PDIF output is provided ensuring signal remains in a digital format all the way to your amplifier. All stations and settings can be easily accessed via the front LCD screen and jog dial or remote control. Dimensions: 430 x 256 x 76mm.

**Features** • DAB+ band III digital tuner and analog FM tuner • Bluetooth® audio streaming • 10 digital and 10 FM station presets • Signal strength display • Two line LCD shows track name, artist and station ID • Remote control • Stereo RCA outputs • S/PDIF optical output

▼ Message Players

**Redback® 4 Way MP3 Message Player**

Similar to our popular A 1741A, this unit is housed in a compact flange mount aluminium enclosure and offers playback of four MP3 tracks. Ideal for custom programming, tones, messages or music for use in interactive displays, security, customer entry and emergency evacuation announcements. When combined with a Redback A 1708/S 0080 timer it can be used to play back scheduled messaging. The included SD card is preloaded with standard tones, including bell, ping bong, siren and pre-announcement chime, plus Australian Standard alert and evacuation tones (complying to AS1670.4). Playback for each track can be activated by a closing set of contacts. Contacts may be configured between alternate or momentary action. Trigger 4 contacts can be configured to provide a cancel playback switch. 24V DC switched output which is activated when any message is active. Includes power supply.

**Features** • 4 custom tracks • Inbuilt tone & phrase library • 24V @ 300mA DC operation (plugpack included) • SD card included • Terminations via screw terminals • Evac tones conform to Australian standard • Optional cancel contact • Switched 24V DC output
