

24 Hour 7 Day Timer With Evac Tone Generator

A weekly timer and evacuation controller all housed in a convenient 1RU rack mount chassis. A total of 200 "event" switching times are available through the timing functions. Each event can be set to turn on from 1 sec up to 24 hours. When a timing event is activated, an MP3 audio file will be played with 99 playback folders to choose from, which include bell, prebell, music and folders 5-99 on the included micro SD card. If more than one MP3 is in a folder the MP3 will be random played. Timing events can be programmed on the unit or with included PC software.

The evacuation controller is designed around industry standard building emergency alert/evacuate requirements. When connected to a paging system amplifier, building occupants can be alerted and/or evacuated in the event of an emergency e.g. fire, gas leak, bomb scare, earthquake. Provision for connection to A 4660 paging console for emergency paging and remote activation of alert/evac and chime functions. Remote activation is also available via a suite of wallplates which can be wired back to the controller using Cat5 UTP cabling.

The units timer and bell times can be remotely managed over a local area network (LAN) or virtual private network (VPN) using A 4498 ethernet adaptor pack.

A 4660

A 4498

Features - MP3 bell, prebell & music timing outputs - Emergency tones conform to AS 1670.4 - Random play for prebell and music - Easy PC based timing event setup - Remote triggering of alert, evac and bell - Switched 24VDC out for bell, alert/evac - Pluggable screw terminal connections - Auxiliary level output - Battery backup of current time - 24V DC operation - Standard 1U 19" rack mount case - Suitable for any amp with an aux input - Includes Power Supply

Price Each	RRP	2+
A 4500C	965.00	900.00
A 4660 Paging console	1085.00	999.00
A 4498 Serial To Ethernet Pack	115.00	99.95

Remote Control Wall Plates

A 4578/A 2078B*

A 4581/A 2081*

A 4581V

When connected to the A 4500C above these wallplates allow alert, evac and chime tones to be triggered remotely. A cancel button is also provided on all models. Protective "flip up" covers to prevent accidental operation. Connects to main unit via suitable multi core cable. Switches are momentary operation. Plates fit standard wall box. Dual fascia plates included. *The A2087B and A2081 models have the same fronts as pictured above but without the LED.

Price Each	Cable Req.	RRP	2+
A 4578 Alert/evac horizontal	RJ45 UTP	179.00	155.00
A 4581 Alert/evac/chime horizontal	RJ45 UTP	225.00	195.00
A 4581V Alert/evac/chime vertical	RJ45 UTP	225.00	195.00
A 2078B Alert/evac horizontal	6 core cable	115.00	97.75
A 2081 Alert/evac/chime horizontal	8 core cable	139.00	120.00

Redback® Remote Isolate Timer Wallplate

This wall plate has been designed to be used with the A4500C Timer and A4505C Lockdown Timer to allows remote activation of the Isolate function of the timers. A simple Connection is made via Cat5e cable.
