## HDMI Audio Extractor

Rear

Allows you to split the audio stream from a HDMI signal into either S/PDIF optical or stereo 3.5mm output. This allows you to easily integrate a digital HDMI source into a system requiring a dedicated audio input, such as active speakers, amplifier receivers, PA systems etc. A switch allows you to select EDID modes between TV source, bit-stream and LPCM 2 channel. Includes plugpack. Supports 4K/2K & 3D passthrough.

Price Each	RRP	2+	4+
A 3831	99.00	89.00	79.00

## Important Note For Wholesale Customers

All prices listed in this catalogue are RRP "retail" prices. To access our competitive wholesale pricing scheme apply for an account via [www.altronics.com.au](http://www.altronics.com.au) or phone the wholesale division in your state - see back cover for phone numbers.

## HDMI Audio Extractor (Multi Analog Output)

4K  
ULTRA-HD

Rear Panel

Allows you to split the audio stream from a HDMI signal into either S/PDIF optical or four analog stereo 3.5mm jack outputs - ideal for 7.1 multi-channel systems. This allows you to easily integrate a digital HDMI source into a system requiring a dedicated audio input, such as active speakers, amplifier receivers, PA systems etc. A switch allows you to select a single stereo output if multi-channel is not required. Includes plugpack. Supports 4K/2K & 3D passthrough.

Price Each	RRP	2+	4+
A 3830B	109.00	99.00	89.00

## 4 Way Auto Toslink Switcher

Provides automatic switching between up to 4 Toslink S/PDIF digital audio inputs. When a signal is present the switcher will switch to the port automatically. Manual selection is also available. Works with CD, BluRay, game consoles and other digital audio sources. Supports PCM/LPCM and bitstream Dolby AC-3, Dolby 5.1, Dolby Digital and DTS. Includes power supply.

Price Each	RRP	2+	4+
A 3212 4 input, 1 output	89.00	81.25	71.25

## Stereo Composite (CVBS) To HDMI Converter

Rear Panel

An upscaler box for integrating stereo composite signals from devices such as CCTV cameras, older camcorders and AV equipment. Converts a standard stereo composite signal into an integrated HDMI 1080p video and digital audio signal. 3.5mm stereo audio and digital coaxial outputs provided. Fitted with HDMI input and output. Includes power supply.

Price Each	RRP	2+	4+
A 3502A	129.00	115.00	105.00

## HDMI EDID Feeder Box

Extended Display Identification Data (EDID) problems are a common cause of HDMI devices refusing to operate with each other. This handy product helps to eliminate EDID related signal issues by emulating or replacing the EDID configuration of a device. Many HDMI equipped products use specialised EDID configurations which can cause signal problems when distributing through splitters and extenders. This is quite common on Windows 7 & Samsung devices. This feeder allows you to read, modify and rewrite the EDID portion of the HDMI signal. HDCP encryption is passed through. Includes a USB lead for powering from your TV/source or M 8864 USB mains adaptor (sold separately). Max emulation pass through 4K @ 30Hz.

Price Each	RRP	2+	4+
