

Class-D Amplifier Operating Manual Addendum

Models: A 4308 / A 4310 / A 4312 / A 4314

RJ45 Remote Monitoring Port Wiring - Per Amplifier Channel

Pin No. **Function**

1. N/C

2. N/C

3. N/C

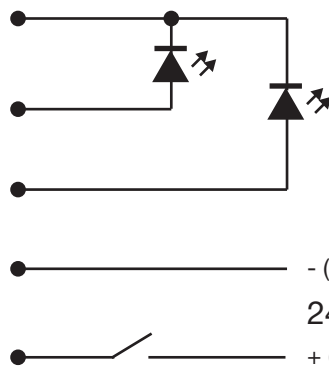

4. - (neg) Common

5. + (pos) Protect LED

6. + (pos) Power LED

7. - (neg)

8. + (pos)

LED Wiring:

LEDs are wired directly with no resistor (5mA forward current).

Remote Power Wiring:

Any remote switch will turn ON/OFF all amplifier channels within the same chassis. Not individual channels.
